BUCKS COUNTY RESIDENTS PRAISE BLOOMING GLEN CONTRACTORS, INC.'S PROJECT WORK IN PENNY POWER NEWSPAPER

Perkasie, PA - Two community ads appeared in this week's September 26th edition of the Penny Power Newspaper praising the work of [Blooming Glen Contractors, Inc. \(BGC\)](#) and Windsor Service. Two residents of Haycock Township in Bucks County, PA, gave accolades to the companies for their paving quality, timeliness and community relations efforts on both Old Bethlehem Road and SR 563. BGC and Windsor Service recently completed the joint repaving project of Old Bethlehem Road from SR 212 to SR 563 through Applesbachville, PA.

Almost 85% of Pennsylvania residents commute to work via automobile, and that figure is naturally even higher in suburban areas such as Bucks County. With minimal public transportation options at the disposal of commuters, our state's roadways quite literally keep businesses running. Repaving projects such as this SR 563 endeavor optimize the daily safety of each commuter each time they get into their automobile. BGC takes pride in providing the residents of the areas in which we operate with safe access to employment, social, health and education services.

We thank both the two residents who offered the BGC and Windsor Service paving crews for their kind words of gratitude, and the Penny Power Newspaper itself. In the age of social media, local print journalism is more important than ever, as it gives a voice to people who otherwise may not be heard while offering relevant and truthful content. BGC also wishes to extend a special "Thank You" to the entire BGC paving crew for their latest demonstration of flawless Paving Prominence, to our Estimating, Project Management, QC, Safety and affiliated Asphalt Plant staff, and the Windsor Service paving crew.

[Blooming Glen Contractors, Inc.](#) is a family owned and operated heavy civil construction services and site contracting company based in Perkasie, Pennsylvania. BGC provides full-service site contracting and heavy civil construction services in the following core service areas: [complete site and land development](#), [transportation & structures](#), [water & wastewater service](#), [design-build and value engineering](#), [demolition](#), [environmental](#) and [emergency response](#). Founded in 1971, we remain dedicated to providing our customers and clients with exceptional service and finished products of the highest quality.
